MIGHTY VOTE OF NEW YORK

BRYANITES FIND ONLY COLD COM-FORT IN THE REGISTRY.

"Vote Early" Will Be the Republican Warery From New On in Tals City Because the Registered Vote Has So Far Over!caped What Was Prepared For-Up-the-State Figures.

The Republican campaign managers said yesterday that the large increase in the number of voters registered this year over 1896 meant that all the men who were opposed to Bryanism were coming out. The figures for Manhattan and The Bronx which were printed in THE SUN of yesterday spoke for themselves. The heaviest gain was in the Thirty-fifth dis-Republican campaigners said that a good part of this was anti-Bryan and that most of it was . due to the natural growth of the city. The Republicans are all thoroughly satisfied with the registry. They say that the gain in the close Twenty-third district is largely Republican and they believe they can transfer this district to the Republican column. The losses in the downtown districts are all Democratic, and,

according to the Republicans, the falling off in the registration in the Second, Eighth and certain other districts indicates that the influences which have been at work to prevent colonization of which the public has not been informed yet have been effective. The Republican managers have taken steps to prevent the casting of fraudulent votes which they are convinced will prove more effective than any

plan that has been followed heretofore, and there is no question in the minds of the Republican campaigners, from Senator Platt and Chairman Odell down, that there will be less effective colonization this year than there has been for years past.

Fearing that the congestion at the polling places due to the enormous registration of see, 973 in Manhattan and The Bronx may lead to loss of votes, the Republican leaders of the Twenty-first, Thirty-first. Twenty-third and Thirty-fifth districts are going to call on Chairman Odell of the State Committee and President Greene of the County Committee and ask their help to straighten matters out. Col. Abraham Gruber of the Twenty-first said yesterday a that of the compaint. Gruber of the Twenty-first said yesterday that he thought his district should be redivided into a larger number of election districts. Whether

a larger number of election districts. Whe ther this can be done under the law is a question. Anyhow, the big registration will indine wise men to get out early and vote in the morning, and thus avoid running any chance of being shut out in the afternoon. From now on the Republican campaigners will din into the voters' ears the phrase, "Vote early". The campaigners figured out yesterday that the vote in Manhattan and The Bronx on the registration ought to be about \$45,000. of which 15,000 will be "miscelianeous." If Mr. Croker is going to make good his promise to the Democratic National Committee to give a plurality of \$0,000 for Bryan below the Bronx he will, admittedly, be obliged to make up all of it in Manhattan and The Bronx, and this means that Tammany must cast about 205,000 votes, against 135,624 four years ago and 173,476 in 1898. The Republican managers rather guess not.

The enrollment of 220,530 voters in Brooklyn, which is 23,123 in excess of the figures in the last Presidential election, surprises both Republican and Democratic managers. To the former the surprise was most gratifying and to the latter decreasing. That the Republican forces are lined up in as solid columns for McKinles and Rooseveit as for McKinles and Hobart in 1898 the Republicans carried twent four of the thirty-two wards, and it is in these wards that 21,524 of the 23,126 increased enrollment for this year is found, leaving only an increase of 1,002 in the eight Democratic wards of 1890. In these Republicans wards there are 435 election districts, so that the average increase per district in the registration this year is 50.65, while there are ninety-three election districts in the eight Democratic wards and they show an average increase of only 17.24. In 1896 the Republicans wards and they show an average increase of only 17.44. In 1896 the Republicans carried fourteen Assembly districts for their Assembly candidates and the Democratic seven. In the former districts, which comprise 480 election districts, here is an increased

train this 'ear' of 19.17e and in the latter, comprising take election districts, just. The average gain in the Bostolian district is 4.98, and a secretic content of the c

Then they notified Capt. Herliny of the Eldridge street station and Detective Grimshaw arrested Kantrowitz. When the latter was arraigned yesterday in the Essex Market police court he declared that he was only 18% years old and had been advised to register by Snitkin and by Dr. Lazarus of 24 Fldridge street, who is one of Supt. McCullagh's deputies.

Former Assistant District Attorney Rosalsky then declared that if there was any charge against Snitkin he would produce Snitkin when he was wanted. The Engelites held an indignation meeting in front of Martin Engels office in Essex street. Yesterday afternoon lawyer Snitkin went to the Edridge street police station and offered him eli for arrest. He was taken at his word. Last night Dr. Lazarus fo loved Snitkin's example. Magistrate Pool went to the police's a ground balled both men out, accepting \$1,000 in each case.

Themas Hugnes, who seemed to be slightly in xed as to where he really did live, was arrested yesterday on the charge of registering illegally in the Twelith electen, district of the Eighth Assembly district. When he registered on Saturday he gave his address as \$02 Eightidge street. One of Supt. McCullagh's men said that he did not live there. John Purcell of 169 Forsyth street was arrested with Hugles, charged with ajding him in resistering illegally in that he advised him to give \$02 Eightidge street as his address. CHICAGO, Ill., Oct. 21.-Families will not rote for Bryan and the doctrines of the Kansas City Convention. DEMOCRATIC HEADS TOGETHER. Cash and Spellbinders to Be Poured Into New York and Indiana.

CHICAGO, Oct. 21 - The Democrats, headed by Chairman James K. Jones of the National Committee, have had conferences all day long as to New York State and Indiana. The former State has thirty-six votes in the Electoral Col-lege and the latter State fifteen. Senator Jones and his friends did not wind up their conferences

until late to-night "Joe" Bailey of Texas and Charles A. Towns of Minnesota were among those present. It was decided to concentrate all the Democratic energies—cash, speakers and literature—on these two great States, the Empire and the Hooster, during the remaining two weeks of the

these two great States, the Empire and the Hooser, during the remaining two weeks of the campaign

Ex-Gov. David B. Hill of New York, while here, said that the Democrats would carry Indiana, but he added. I have no means of getting at the facts. I have simply been making campairs speeches in the State.

It was Mr. Hill who, during the campaign of 1892, said that Mr. Cleveland would be defeated, and it was this same Mr. Hill who told his intimate friends in 1894 that he, Hill, would gurely be elected Governor of the State of New York over Levi P. Morton. Mr. Hill in that campaign was only beaten by 143,600 plurality. One of the closest friends of Bryan advises by telegraph to-night not to bet on his election, but to use the money in chipping into the Democratic campaign fund.

Senator rianna said.

Yes, I know that the Bryanifes are still claiming New York and Indiana and that they are to fight like old Harry for those two States. Our friends in New York are alert and so are our people in Indiana, and it is all right. I am glad that the Bryanites have decided to concentrate their battle in New York and Indiana. It will exert a fine influence upon our friends in those two great States. Bryan is defeated and the decision of the Democrats to-day to concentrate upon New York and Indiana is the last gasp. All must be elect, and all must look out for roorbacks. This is the time in the campaign when those cheerful birds hover over the situation.

Senator Chauncey M. Depew will begin a two weeks' stump speaking tour of the State tomorrow merning on a special train which will

STATEMENT BY MITCHELL:

PARTIAL SETTLEMENT OF THE MINE STRIKE, HE REPEATS. He Says That 65 Per Cent. of the Operators

Have Agreed to Terms, but That Wont Do-He Names Some Who Have Not Guaranteed the 10 Per Cent. Advance Till April 1. HAZLETON, Pa., Oct. 21.—President Mitchell gave out the following statement to-night: 'As there appears to be some disposition on the part of the public to place the responsibility for the prolongation of the strike on the shoulders of the mine workers, speaking for Bryan weeps because Malay assassins are not them I want to say that when the Scranton convention accepted a 10 per cent. advance, providing that the operators would aboush the sliding scale and guarantee the payment of the increase until April 1, the miners had met the operators more than half way. They had shown a conciliatory spirit and I know of no good reason why their proposition should not have been accepted by the operators. As a consequence the responsibility for the continuation of this strike rests solely upon the a free ballot and a fair count to the white men of Kentucky Mr. Bryan's party has destroyed the very altar of republican liberty in that the very altar of republican liberty in that to profit by these atrocious acts of despotism. No, the young voters will not follow Bryan, and for that matter neither will thousands of older Democrats. You should have heard the comments over Bryan's conduct in Michigan When Bryan was speaking at Ann Arbor, the college town, on Oct. II, some one in the audience called out: "How about free silver?" and he replied as follows:

"We are in favor of the free coinage of silver at the ratio of 18 to 1 without waiting for the aid or consent of any other nation on earth."

Bryan loves his silver dogma all the more fanatically because he has to nurse it in silence. The surprise sprung on him at Ann Arbor shows how the land lies. Believing in free silver as absolutely and as ardently as ever. Bryan will stop at nothing when the opportunity comes to enforce that policy in its most extreme and reckless form.

That incident at Ann Arbor gave Chairman Jones of the Democratic National Committee the pip. All others at Democratic headquarters in this city immediately had "that tired feeling."

It has been mighty interesting to talk with failure of the operators to treat the proposition

MINE LEADERS DISAGREE

Breach Over the Powder Question-Another Convention This Week.

WILKES-BARRE, Pa. Oct. 21.- President Mitchell is expected to issue a call to-morrow for a convention of the United Mine Workers to be held toward the end of this week, and it is believed by the strikers and their leaders that the strike will then be settled. Whether it will be by the acceptance of the operators' offer, made last Thursday, or whether the convention will agree to accept an increase in which the powder question is eliminated, otherwise a plain increase of 10 per cent , it is impossible to say, and a vigorous contest over the two courses is expected in the convention. Each really amounts to the same thing, although if the operators give the plain 10 per cent. increase and maintain the price of powder at \$2.75 the strikers will be able to use the apparently exorbitant price of \$2.75 as the basis of another strike.

It is understood that President Mitchell favors accepting the operators offer of 10 per cent, increase and powder at \$1.50, the reduction of \$1.25 a keg being figured as a portion of the increase. This would simplify conditions very materially and all the miners would be on the same footing. There is an open breach between the leavers on the question. Those who represent the Shamokin and Schuylkill region, where the men now get powder for \$1.50, are eager for an end of the strike because their men are clamoring to go back to work. A break from the ranks of the union there is not improbable, and Fahey and Duffy, the district Presidents, are now a dressing mass meetings and urging the men to wait for the order from President Mitchell before returning to work, using as the chief cry: "Stand by the men in the Wyoming and Lackawanna region, until they settle the powder question." and maintain the price of powder at \$2.75 the and Lackawanna region, until they settle the powder question.

If the decision was left to the men here fully so per cent, would vote to return to work at once. The sixth week of the strike opens to-morrow, and the strikers have yet to receive their first cent or pound of supplies from the national union. They have almost reached the end of their resources, and many are now penniless and living on what little aid their local unions can give them.

BRYAN'S DEFEAT WILL END THE WAR. STRAUSS AT THE OPERA HOUSE. His Viennese Orchestra Heard to Better Advantage Than at the Waldorf.

Eduard Strauss and his Viennese orchestra were heard last night at the Metropolitan Opera which greeted the famous composer's brother "Much interest exists here with regard to in the less appropriate atmosphere of the Walthe campaign now going on in the States. The Democrats are quite active here now. Twenty soldiers were killed the other day, being a contribution to the campaign material of the Democrats. This war would have ended long ago were it not for Bryan. He is more a leader of these people now than Aguinaldo, and every American soldier that is killed during this campaign can be laid directly to his door. They are making extra efforts now simply to make a showing to be used in the States. If Bryan is defeated the whole thing will crumble. In Mindanao there has been an armed truce between Americans and Filipinos until after election. If Bryan is elected the Filipinos expect the Americans to withdraw the next day, while if he is defeated they will surrender at once. That is the best illustration I can give of truce conditions here.

Steambly Broken Bown 630 Miles On. was greater oleasure to be taken out of the other numbers than the dance music. This was as enjoyable as it had been before, possessing the unique charm that Viennese players can impart to it more completely than anyothers. There was only one programme number last night by Johann Strauss. This was "Roses from the South" and the audience had the additional pleasure of hearing the waits from "Die Fledermaus" and the "Pizzicato Polka" played with all the exaggerations of tone and tempi that delighted the audience on Saturday. The playing of the Johann Strauss waltres was made charming by the unique qualities of the players, who are so well worth hearing that it is a pity so much uninteresting and ill-performed music must be heard with what is so rare.

The compositions of Eduard Strauss has night were the "Jubilee waits, a poline a "Barcarolle Orientale," and the galop "Once Around" Other numbers were a scena from Masscandi's "Radeliffe," the overture to Nicolai'e "The Merry Wives of Windsor and one of Mendelsschn's "Songs Without Words" erchestrated by the conductor.
